JIRA Confluence, , : , , . . , JIRA « » « », Confluence. JIRA.

The screenshot shows the Fourwells 2.0 Specification interface. At the top, it says "Fourwells 2.0 Specification" and "Phase 1 - Internal Developer Build [DONE]". Below that is a "Notes" section with several bullet points. Under "Policy", there are more bullet points. A large arrow points from the "JIRA Search results inserted in Confluence as a table" section to a table below. This table has columns: Type, Key, Summary, Assignee, Reporter, Priority, Status, Due Date, Created, Updated, and Due. It contains three rows of JIRA issue data. At the bottom, there's a "Phase 2 - Public Alpha [IN PROGRESS]" section with a "Notes" section containing bullet points. A second large arrow points from the "Individual Issues inserted in Confluence" section to a list of three items: "JIRA API", "Confluence API", and "Confluence Core".
