Define space structure

The space structure is defined by setting the parent space of the current space.

Please enter the space key of the parent space.

Enter dashboard to define this space as a default space:

Help Tips

Create space keys of existing spaces.

[Dashboard](#) > [Germany](#) > [Browse Space](#) > [Create Sub-Space](#) [Browse](#) > [Julia's Blog](#) [Search](#)

Create Space

[Pages](#) [Blog](#) [Labels](#) [Attachments](#) [Bookmarks](#) [Mail](#) [Advanced](#) [Space Admin](#)

Space Operations

- Edit Space Details
- Edit Space Labels
- Remove Space
- Create a sub-space
- Trash

Security

- Permissions
- Restricted Pages

Mail

- Mail Accounts
- Mailbox Import
- Link and Post

Create sub-space

A sub-space for the current space will be created.

Content in Conference is organized into spaces.

A space is where your pages live, where your blog is posted, and where your mail is and can new or contribute to the content of a space.

There is no limit to how many spaces you can create.

Enter the name of the sub-space

Example

Enter the key of the sub-space

example|

Manage static links

Title	URL
Map	http://

☒ ☐

Help Tips

Use the dialog to define the hierarchical space structure by changing the parent of a certain existing space.

Static links are shown in the space structure box, and can be used to define links to external systems, (+) adds a new link to define a new static link, (-) deletes a static link.
