

JIRA Service Desk

JIRA Service Desk is the most collaborative service management solution on the market that IT and service teams actually like to use.

JIRA Service Desk is recognized as a leader in service desk software by G2Crowd, ahead of legacy vendors like BMC and ServiceNow.

A beautifully simple service desk

User-friendly experience

Give customers an intuitive interface to submit tickets to IT teams with clear, simple options.

Real time performance

Increase visibility for JIRA teams instantly with real time reporting and clear priorities.

Service level agreements

Keep SLA at your forefront with support, automated request management and customisable queues.

Make asking for help easy

Our self-service portal makes it easy to request help, search knowledge bases and track progress on issues.

Get work done, smarter

Automation, SLAs, smart search, workflows, and more. Everything to make your IT teams more productive.

Easy Pricing

Pay for agents you need and all your customers are always free. Get started from \$10 for up to 3 agents.
