FishEye

FishEye SQL- , Crucible, , ,

The image contains two side-by-side screenshots of the FishEye software interface.

Left Screenshot: A search results page titled "Search Results - Search for 'SQL'". It shows a table with columns: Author, Date, File, and Lines. The table lists several commits made by "Beefie" on various dates between 2010-10-12 and 2010-10-13. The commits are related to "SQL" changes in files like "src/main/java/com/couchbase/client/bucket/SqlQuery.java". The interface includes a sidebar with "Journal" and "Commits" sections, and a top navigation bar with tabs like "File", "Issue", "Commit", "Author", and "Search".

Right Screenshot: A detailed view of a specific commit. The title is "File: sql/SqlQuery.java - Line: 100 - Author: Beefie - Date: 2010-10-13 00:49". The right pane displays the commit message: "Initial support for SQL query language. Includes basic SELECT, INSERT, UPDATE, DELETE, and CREATE statements. Adds support for parameters and transactions. Fixes #1234567890". Below the message is a diff viewer showing the changes made to the file. The bottom of the screen shows a footer with links to "File", "Issue", "Commit", "Author", and "Search".
