JIRA

	JIRA
2.2.0	6.0 - 6.0.8
2.1.1	5.0 - 5.1.7
2.1.0	5.0 - 5.1.2
2.0.1	5.0 - 5.0.7
1.0.9	4.0.1 - 4.4.5

The screenshot shows the JIRA Project Creator interface. On the left, there's a sidebar with 'Issue Details' and 'Available Workflow Actions'. The 'Issue Details' section shows fields like Key (JIRA-123), Type (Project Creator), Status (Open), Priority (High), Assignee (admin), Reporter (admin), Votes (0), and Watchers (0). The 'Available Workflow Actions' section includes 'Create New Project', 'Start Progress', 'Resolve Issue', 'Close Issue', and 'Assign this issue'. The main content area shows the 'Project Creator' form with fields for Component (None), Affects Versions (None), and Fix Versions (None). Below the form, there's a 'Time Tracking' section with 'Not Specified'. At the bottom, there's a 'Comments' section with a comment: 'The project [PROJECT] has been successfully created'. A red arrow points from the 'Comment added' button to the comment text.

The screenshot shows the JIRA CustomFields Administration: Multi_User_Picker interface. It features two lists: 'Remove' and 'Add'. The 'Remove' list contains 'Jira developers' and the 'Add' list contains 'Jira administrators'. Below the lists, there's an 'Update Configuration' button.

This screenshot is identical to the previous one, showing the JIRA CustomFields Administration: Multi_User_Picker interface with the 'Remove' and 'Add' lists and the 'Update Configuration' button.

Choose the field type from the list below. 24 types available

You can find more useful custom field types from the [JIRA Extensions](#) space

Field Type		
☐ Cascading Select	Choose multiple values along two selected lists	☐ Date Picker A custom field
☐ Date Time	A custom field that stores dates with a time component	☐ Free Text A multiline text
☐ Group Multi User Select List (deprecated, use group multi select)		☐ Group Picker Choose a user
☒ Group Single User Select List (deprecated, use group single select)		☐ Hidden Hidden switch
☐ Import ID	A read-only custom field that points back to the previously imported bug id.	☐ Job Check Checkboxes to check
☐ Multi Checkboxes		☐ Multi Select

The screenshot shows the JIRA 'New Bug' form. The 'Summary' field is highlighted with a red box and contains the text 'This is my first Bug'. The 'Description' field is highlighted with a red box and contains the text 'This issue related to J-2007-01 Tracking File Bug'. A red arrow points from the 'New Bug' button to the 'Summary' field. Another red arrow points from the 'Summary' field to the 'Description' field. A third red arrow points from the 'Description' field to the 'New Issue Created and Linked' button.

Add required parameters to the Function.

Project: Current Project

Issue Type: Current Issue Type

Issue Link Type: Do not link

Linking the new issue.

Add Cancel

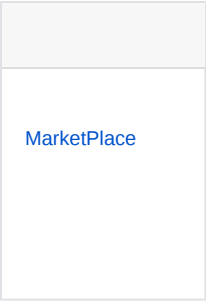

The screenshot shows the 'New Project' dialog in NetBeans 7.0. The 'Project Name' field contains 'NewProject'. The 'Location' field is empty. The 'Create Project' button is highlighted. Below the location field, there are two sections: 'Business Users' and 'Developer', each with a dropdown menu. The 'Business Users' dropdown is open, showing options: 'None', 'admin', 'test1', and 'test2'. The 'Developer' dropdown is also open, showing options: 'None', 'admin', and 'test1'. Below these is a 'Comment' field. At the bottom, a message states: 'The maximum file upload size is 10.00 MiB. Please zip files larger than this.'
