Project

Angry Birds

Default project when new issues are created.

Issue Type

Bug

Default type for new issues.

Strip Quotes

☐

If checked quoted text is removed from comments.

Catch Email Address

☐

If set, only emails having the specified recipient in fields To, Cc or Bcc will be processed.

Bulk

Ignore the email and do nothing

Action that will be performed for emails with the "Precedence: bulk" or email with an "Auto-Submitted: header that is not set to "no".

Forward Email

Create Users

☐

If a message comes from an unregistered address, create a new JIRA user with the user name and email address set to the "From" address of the message.
The password for the new user is randomly generated, and an email is sent to the new user informing them about their new account in JIRA.

Default Reporter

Start trying to get a list of possible matches.

Notify Users

☒

If Create Users is set and Notify Users is checked new JIRA users will receive a notification that their account has been created via email.

Fields:

You haven't provided Default Reporter and Create Users is off. Messages sent by unknown users will be silently ignored.
