Stash Realtime Editor is a new add-on for Stash that allows you to view and edit code in real-time. It's a great way to collaborate with your team and get feedback on your code changes. Here's how to use it:

1. Open the Stash Realtime Editor in your IDE.
2. Push your code to Stash.
3. View the code in the Stash Realtime Editor.

Stash Realtime Editor is a great way to collaborate with your team and get feedback on your code changes. It's a great way to work with your team and get feedback on your code changes.
