The screenshot shows the JIRA web interface for a project named 'Version TIS Platform 2.0'. The interface includes a sidebar with navigation options like Backlog, Active sprints, Releases, Reports, and Components. The main content area displays a progress bar, issue counts (15 Warnings, 82 Issues in version, 20 Issues done, 3 Issues in progress, 59 Issues to do), and a list of issues. Annotations highlight specific features:

- Easily navigate your project**: Points to the sidebar navigation menu.
- Monitor code health**: Points to the 'Unreviewed Code' section, which lists issues like 'TIS-1667 Bundle TIS stylesheets into release'.
- Track build quality**: Points to the 'Failing Builds' section, which lists issues like 'TIS-1988 "Release" dialog opens in a new page when clicking it from the standalone'.

P	T	Key	Summary	Assignee	Status	Development
		TIS-1667	Bundle TIS stylesheets into release	Kevin Campbell	DONE	1 commit
		TIS-1555	Create Dev Status branch for TIS bugfixes	Jennifer Evans	DONE	1 commit
		TIS-1660	In func tests, TIS reindexing is not working after data restore	William Smith	DONE	1 commit
