Define space structure

The space structure is defined by setting the parent space of the current space.

Please enter the space key of the parent space.
Enter dashboard to define this space as a top-level space.

Create Space

Pages | Blog | Labels | Attachments | Bookmarks | Mail | Advanced | **Space Admin**

Space Operations

- Edit Space Details
- Edit Space Labels
- Remove Space
- Create a sub-space
- Trash

Security

- Permissions
- Restricted Pages

Mail

- Mail Accounts
- Mailbox Import

Create sub-space

A sub-space for the current space will be created.

Content in Conference is organized into spaces.

A space is where your pages live, where your blog is posted, and where your mail is and can now contribute to the content of a space.

There is no limit to how many spaces you can create.

Enter the name of the sub-space

Subspace

Enter the key of the sub-space

subspace|

Subspace Configuration

Configure

 - ↳ Greece Change Parent Space
- ↳ [North America Change Parent Space](#)
 - ↳ Canada Change Parent Space
 - ↳ USA Change Parent Space
 - ↳ California Change Parent Space

Help Tips

Use the dialog to define the hierarchical space structure by changing the parent of a certain existing space.

Static links are shown in the space structure box, and can be used to define links to external systems, (+) adds a new link to define a new static link, (-) deletes a static link.

Manage static links

Title	URL
Map	http://

Facts and Figures

Recommended with horizontal navigation bar and sub-spaces of the current space in the left navigator

Children **Labels** **Attachments**

This page currently has no children.

There are currently no attachments on this page.

The screenshot shows the Joomla! administrator interface. The top navigation bar includes 'Content', 'Extensions', 'Users', 'Groups', 'Tools', and 'Help'. The left sidebar has a 'Content' menu item highlighted. The main content area displays a list of content items. The first item is 'Joomla! 1.5.26 Release' by 'Joomla! Team'.

ID	Title	Author	Date	Hits
1	Joomla! 1.5.26 Release	Joomla! Team	2012-06-26 10:00:00	1

Рабочий стол • Личный • Пространства • Создать дочернее пространство

Создать дочернее пространство

Данное пространство будет создано в качестве дочернего пространства.

Можно выбрать пространство из списка:

Пространство, в котором вы хотите создать дочернее пространство, должно иметь ключ. Различное пространство может иметь только один ключ.

Не рекомендуется создавать пространство, которое не имеет ключа.

Выборите название дочернего пространства

Выборите ключ дочернего пространства
