Draw on the power of Atlassian with Gliffy

- ✓ Create professional looking flowcharts, wireframes, UML, CRD, BPMN and more
- ✓ Use Templates, symbol libraries, and import images for fast diagram creation
- ✓ Intuitive interface makes it easy to learn

SWOT Analysis

The screenshot shows a music store website interface. The header includes the site name 'music store' and navigation links: Home, Music, Artists, and Albums. The main content area is divided into three sections: 1. Search (with a search bar and 'Go' button), 2. Related Artists (with a list of artists and a 'Show More' button), and 3. Popular Tracks (with a list of tracks and a 'Show More' button). The right sidebar features an 'ARTIST NAME' section with a description, a placeholder for an album cover, and a 'Choose an Album' section with a list of albums and a 'Show More' button. Below the album list, there are radio buttons for 'CD', 'Vinyl', and 'LP', and a price tag of '\$16.99'. The bottom of the sidebar has a checkbox for 'Send me updates on this artist' and an 'Add to Cart' button.

1. For CD release, music search only
2. Related artists determined by user purchasing data mining
3. Album art to be approved by legal
