JIRA

	JIRA
1.19.1	6.0 - 6.1.2

Custom Fields

Branch:
Branch to which code has been committed.

Date of First Response (after):

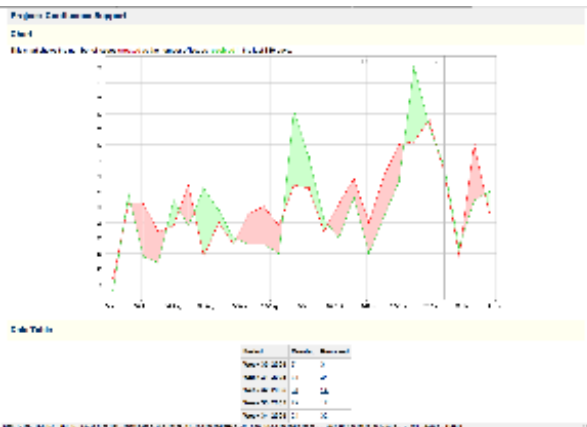

Date of First Response (before):

Date of First Response: From To
This is used to query for first comments on an issue

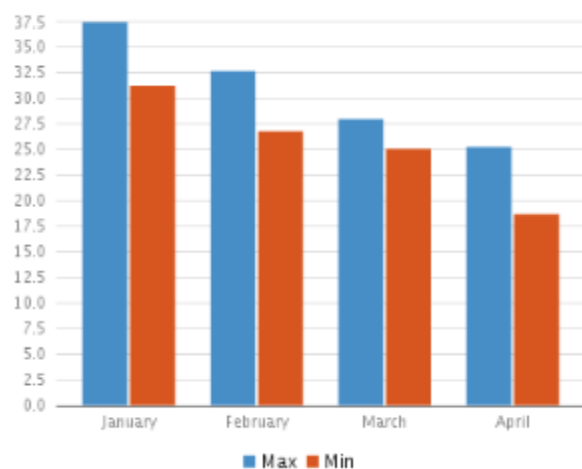

Date of First Response (after):

Date of First Response (before):

Date of First Response: From To
This custom field indexes the date of the first comment that is not by the reporter (for fast querying during charting) but also allows you to add this date into any filter or search.

Temperatures in Brisbane
